PREMIUM SPC & LVT FLOORING . . . . .

**COMPANY  
PRESENTATION**

MILAT FLOOR is a subsidiary of **MILAT CARPET** which is listed in Turkey's Fortune 500 Companies

### **MILAT GROUP FACILITIES**

Milat Carpet, Türkiye	100.000 sqm
Milat Floor, Türkiye	20.000* > 70.000+ sqm
Milat Carpet, Bulgaria	10,000 sqm
Milat Carpet, Egypt	35,000 sqm

\*Soon to be extended to 70,000 sqm

# VISION STATEMENT

to revolutionize the flooring industry by becoming the global leader in innovative, sustainable, and high-performance SPC flooring solutions.

We envision a future where our products set the standard for durability, design, and environmental responsibility; transforming spaces worldwide while inspiring trust and excellence in every step.

# MISSION STATEMENT

We are committed to producing high-quality, durable, and eco-friendly stone plastic composite flooring solutions that enhance modern living spaces.

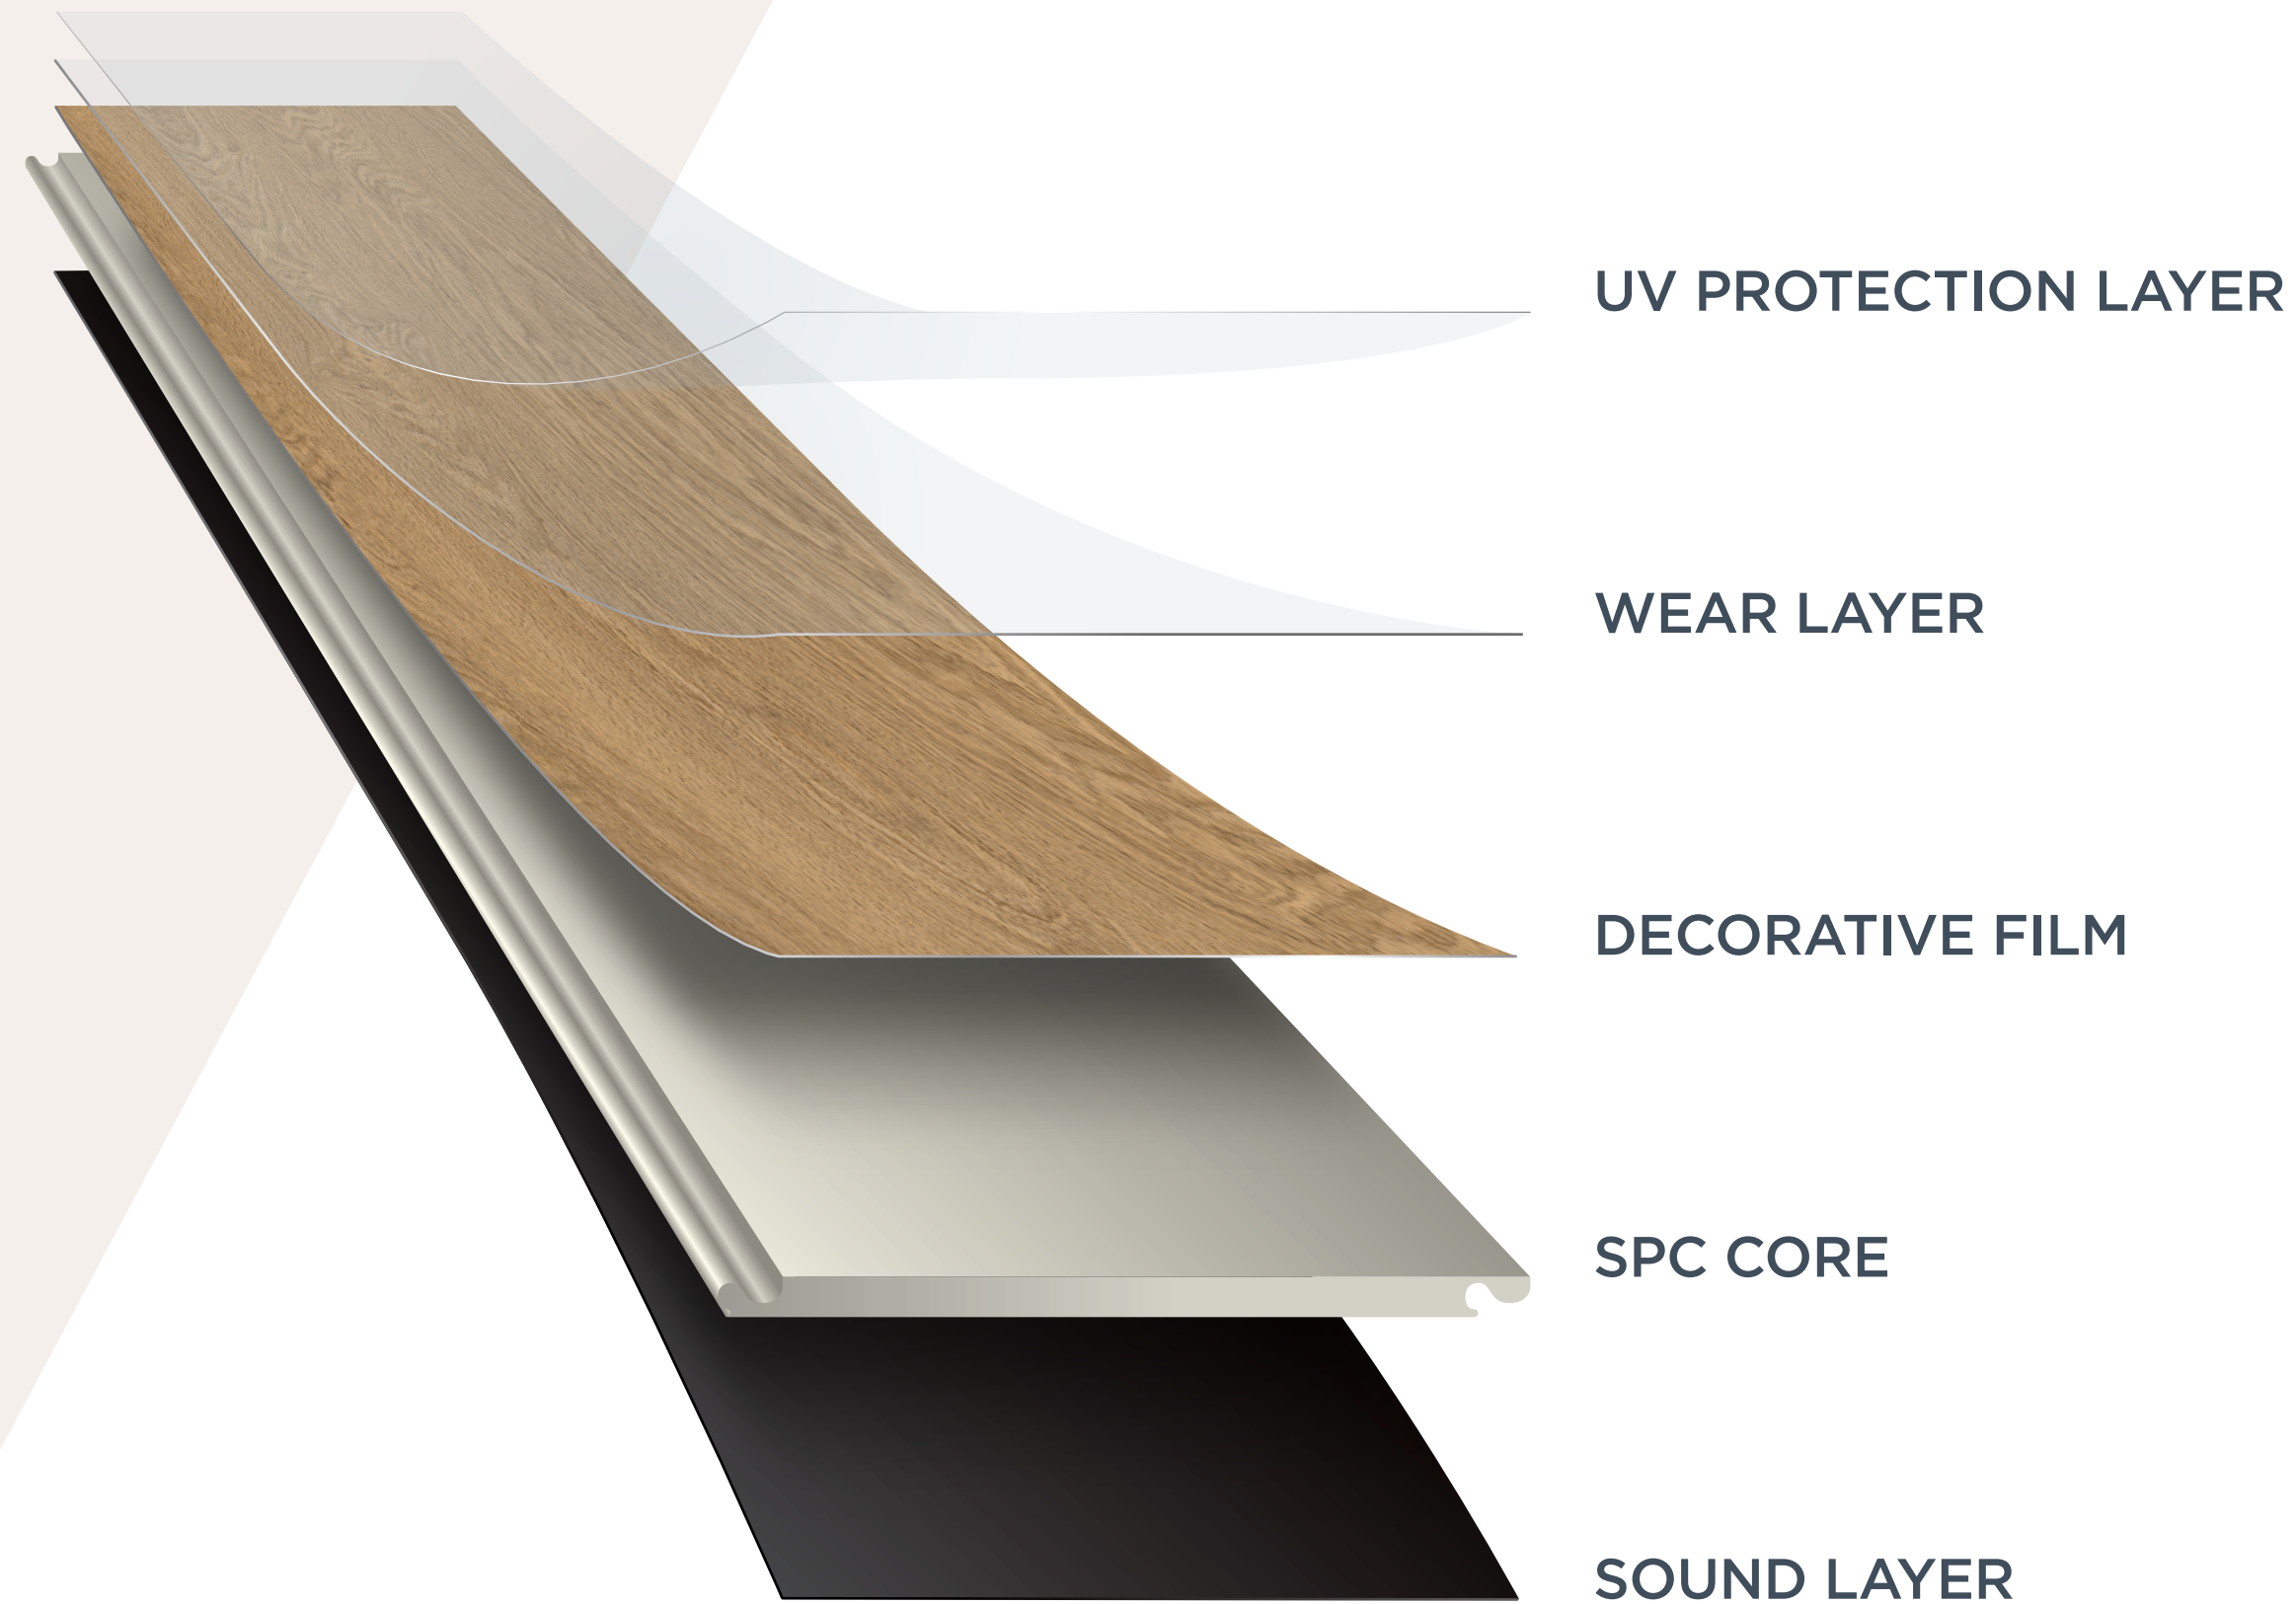

Through innovation, precision engineering, and sustainable practices, we strive to deliver superior products that meet the evolving needs of homeowners, businesses, and installers worldwide. Our dedication to excellence, customer satisfaction, and environmental responsibility drives us to be a trusted leader in the SPC flooring industry.

PREMIUM SPC & LVT FLOORING

## Unilin's Uniclick

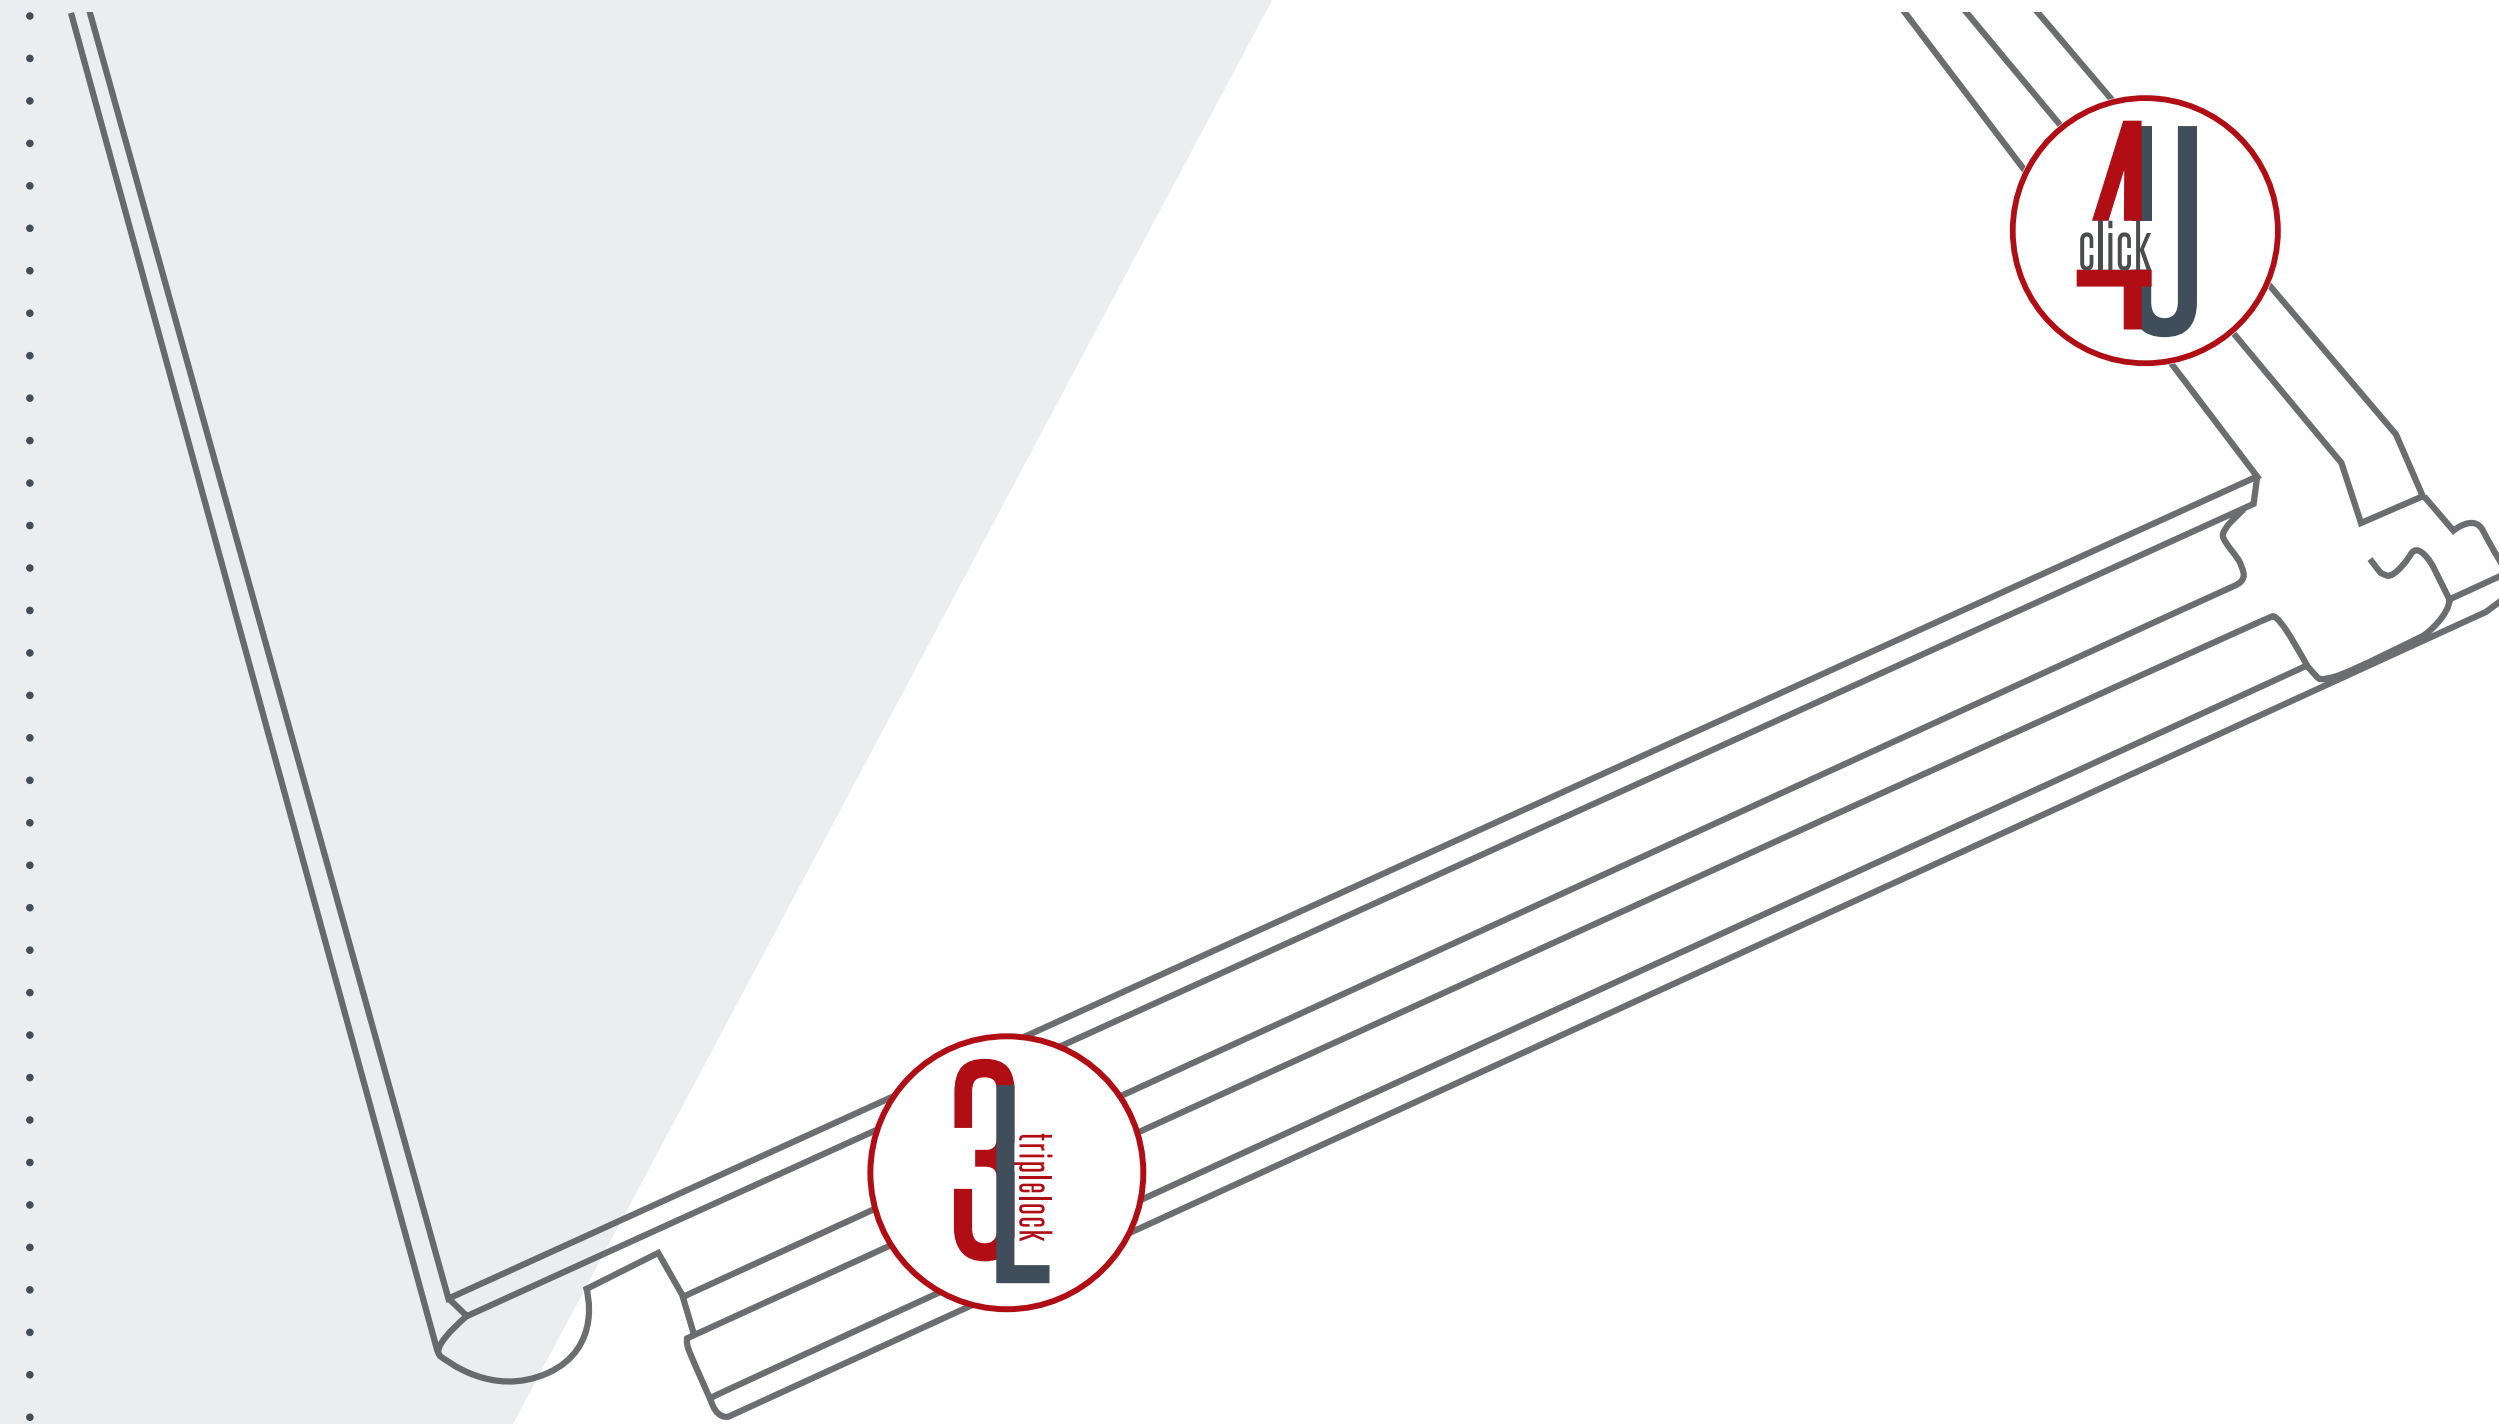

UNICLIC is the established favorite in the industry thanks to its unmatched efficiency and technical performance. This glueless locking technology for flooring and wall panels works for both the long and short sides of the panel and is easily installed by angling or snapping.

UNICLIC guarantees a high tolerance control towards height differences and (unwanted) gaps through a flexible lower lip in combination with contacts and spaces in the joint.

**UNILIN**  
DIVISION TECHNOLOGIES

Discover the world's easiest one piece drop-lock system on the market for patented floor locking systems  
3L TRIPLELOCK AND CLICK4U

fast & reliable locking system for **short side**

**I4F'S DROP LOCK 3L TRIPLELOCK**

A one piece drop-lock system for the short side that eliminates the need for additional plastic inserts. 3L TripleLock provides a unique one piece drop-lock installation technique for flooring panels that eliminates the need for an additional insert on the short side. This elimination provides manufacturers with the possibility to improve productivity levels as well as to reduce their costs and carbon footprint. The 3L TripleLock click system is suitable for existing high speed production.

easy & durable locking system for **long side**

**I4F'S DROP LOCK CLICK4U**

An angle-system for the long side combined with 3L TripleLock on the short side. The angle system has proven itself for many years and combined with the drop-lock on the short side the locking strength is very high. Just like 3L TripleLock, Click4U is suitable for existing high speed production machinery. The system has multiple installation benefits as well. It is fast and easy to install and installation does not require special tools.

The background of the entire image is a close-up, high-resolution photograph of a light-colored wood grain, likely oak or a similar species. The grain runs horizontally across the frame, showing natural knots, swirls, and variations in tone from a pale tan to a slightly darker, more textured brown. The lighting is even, highlighting the fine details of the wood's surface.
